

Morgan to Arrange New British Loan

NEW YORK, Sept. 30.—J. P. Morgan, financial agent of the British government in the United States, has engaged passage on the American line steamship New York, sailing today. It is reported that Morgan is going to London to arrange for floating another British loan of \$250,000,000 to be backed by American securities. Henry P. Davison, one of Mr. Morgan's partners, left for England several weeks ago.

Bankers who were questioned about the opportunity for floating another British loan said that never in the history of the country has there been such a demand for bonds.

Walter Hines Page, the American ambassador to Great Britain, and Mrs. Page also are passengers on the New York.

Hughes Completes 20,000-Mile Lap

CORNELL, N. Y., Sept. 30.—Charles E. Hughes today completed his twenty thousandth mile of campaign within eight weeks. He also ended the second trip of his presidential campaign. Mr. Hughes left here at 8 a. m. today for Buffalo with eleven stops between. He rounded out the 5,000th mile of his trip on the way. His first trip by rail and motor was 14,900 miles long.

Three Acquitted of Shooting Indian

PRESCOTT, Ariz., Sept. 30.—A verdict of not guilty was returned last night by a jury in the murder trial of Ashley Wilson, E. Nash and D. M. Robertson, employees of the Western Navajo Indian reservation in northern Arizona for the shooting last January of Taddy Tin, an Indian who resisted arrest on the reservation. The shooting almost caused an uprising of the Navajos.

EVANGELIST TO ARRAIGN DANCING AGAIN SUNDAY

A subject of unusual interest has been selected by the Rev. Burke Culpepper for his sermon tonight at St. Luke's Methodist Episcopal church, south, and other large attendance is expected. The meetings this week notwithstanding the fair, have been large and enthusiastic.

Tomorrow night the evangelist probably will take up the subject of dancing, some phases of which he was unable to touch upon Thursday night.

The clergyman's views on this particular subject are out of the ordinary and his arguments against the "evil" generally are accompanied by gymnastics designed to make the strong points convincing.

Banker Convicted of False Reports.
PORT SMITH, Ark., Sept. 30.—T. W. M. Boone, president of the defendant American National bank, which failed with a shortage reported by bank examiners to have been more than \$200,000 was found guilty by a jury in the federal court here today on one count of an indictment charging falsification of a report of the bank's condition to the comptroller of the currency.

Vital Statistics

Marriage Licenses Issued.
John C. Allen, 38 years old, and Mrs. Beale Payne, 27 years old, both of St. Paul, Okla.
Philip J. Welch, 24 years old, and De Hopkins, 18 years old, both of Moore, Okla.
Charles R. Williamson, 22 years old, of Hennessey, Mo., and Wilfred McLaughlin, 25 years old, of this city.
Thomas H. Hovel, 26 years old, and Lora Hunt, 15 years old, both of Shawnee, Okla.

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

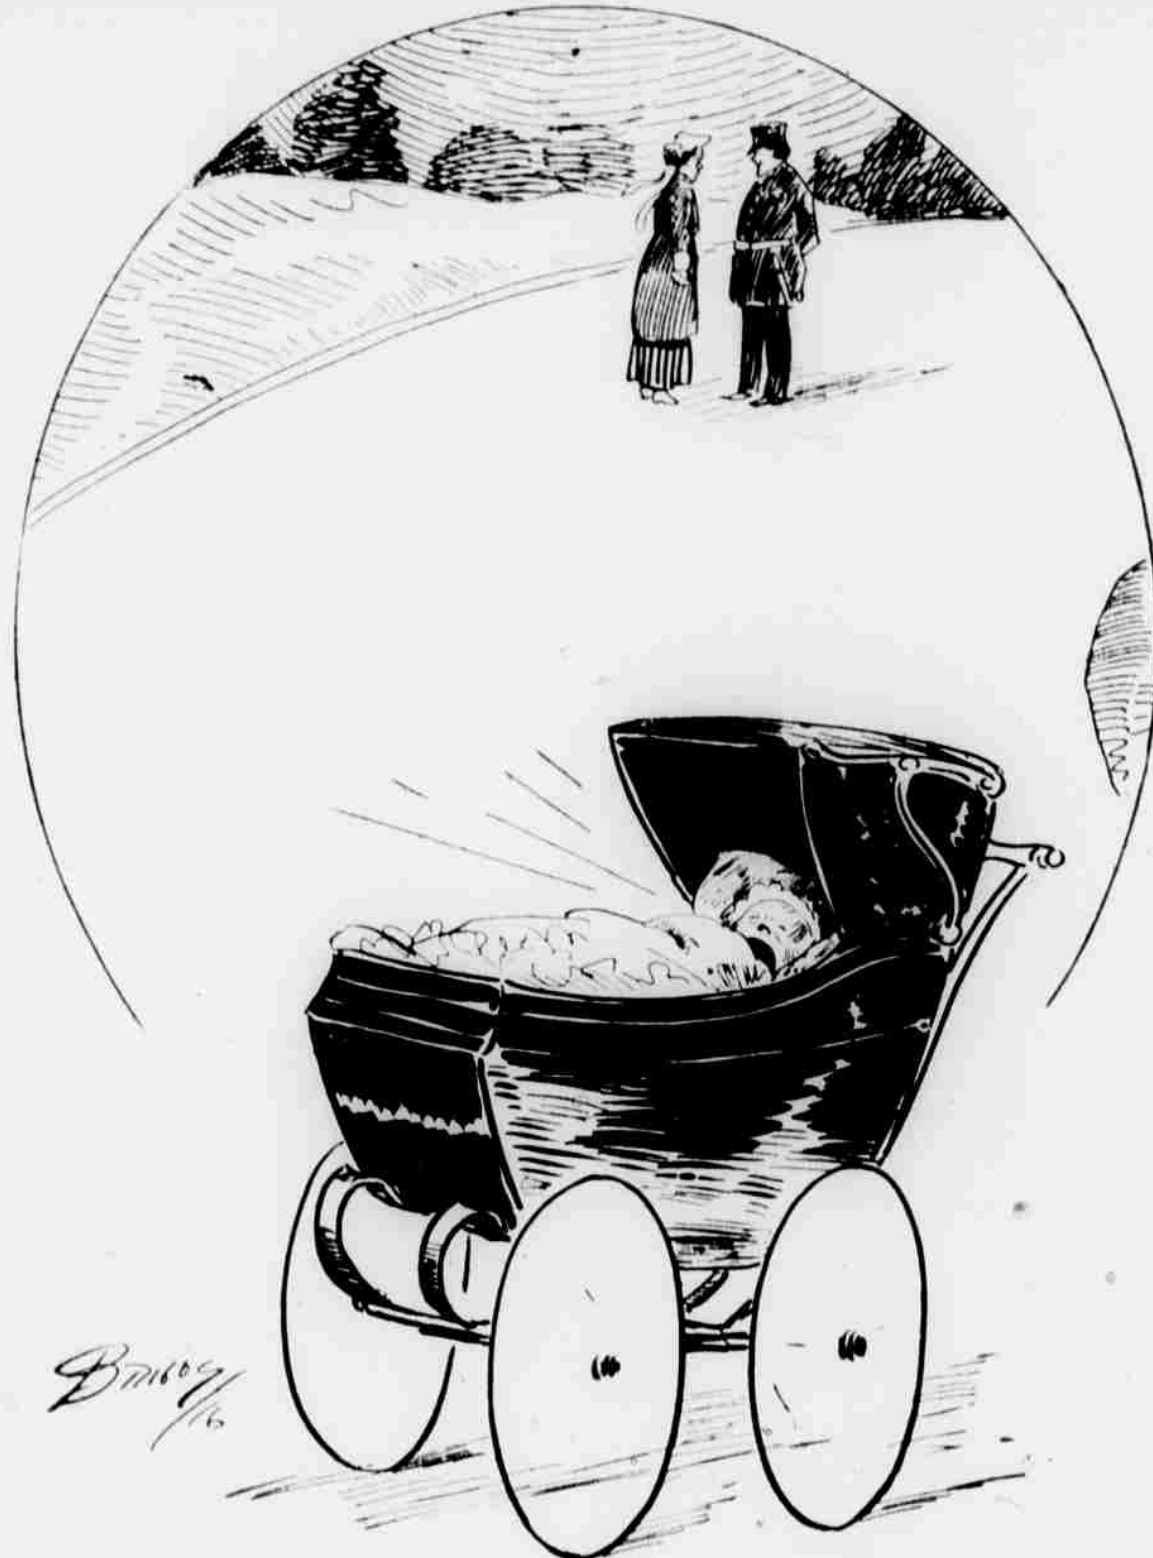

It is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone whether ailing, sick or well should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of lemonated phosphate in it to wash from the system, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins, thus cleansing the system and maintaining the entire alimentary canal before putting more food into it. The action of hot water and lemonated phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and forcing it out in a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, biliousness, stomach trouble, rheumatism, skin eruptions, headache, dizziness, blood disorders and sickly complexions are urged to get a quarter pound of lemonated phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced tank on the subject of internal sanitation.

When a Feller Needs a Friend

MEXICO DENIES WISHING TO TAKE OVER BANKS

Directors Protest Against Decree Requiring Examination by Government.

MEXICO CITY, Sept. 30.—A statement was issued by the treasury department today in regard to the forcible closing of the Bank of London and Mexico and the Banco Nacional. The directors of these two banks protested against the recent decree requiring all banks to submit to the supervision of government examiners and giving sixty days in which metallic reserves should be brought up to the amount of paper issues. The directors of the two banks in question at first refused to turn over their institutions to the government examiners.

The statement says that as the treasury department had no desire to take over the banks without a formal inventory of their assets the banks were closed until the expiration of the sixty days within which the metallic reserves and paper issues were ordered equalized.

The manager, superintendent and two directors of the Banco Nacional were arrested owing to a misunderstanding while the proceedings of the bank examiners were being recorded. After an explanation the directors were immediately released.

Arrested for Disobedience.

William Mitchell, manager of the Bank of London and Mexico, was also arrested for disobedience to the decree and agreed to turn over his bank on Friday. The statement adds that rumors that the government intended to take money from the banks of issue are absurd.

FAIR IS CLOSING TODAY ITS MOST NOTABLE SEASON

(Continued from Page One.)

of Fairbury, Mo., who was to have been director of the sale, was unable to be present.

Attendance at the State Fair this morning was somewhat curtailed owing to the fact that today is the last day of the exposition. Then, too, the cool weather probably kept away the more cold-blooded visitors.

Interest in Auto Races.

Chief interest in today's program centered around the fast automobile races scheduled for this afternoon from 2 o'clock until 5 o'clock. The crowning event of the gasoline Derby was to be a twenty-five-mile sweepstake. Every driver on the race program entered this event.

Fair directors believed a crowd fully as large as that which witnessed the automobile races Wednesday would be in the grandstand this afternoon when the announcer called the first event.

Schedule of Events.

Three-mile five-mile exhibition and time-trial races were also scheduled for today. The usual vaudeville program was to be presented in front of the grandstand in the afternoon, and the live ponies were to make their last appearance.

Tulsa county was given a silver cup and \$200 in gold yesterday afternoon as first prizes in the county agricultural exhibits. Caddo county, which was second was awarded \$150. Kiowa county, third, received \$125 and Greer county, fourth, \$100. Oklahoma county was twenty-sixth in the list.

Crating Exhibits.
A few exhibitors began crating their

exhibits this morning, preparatory to shipping, but in every exposition building the displays will be found practically unimpaired this afternoon. The real work of crating and shipping will begin tonight after the doors have closed on the tenth annual Oklahoma State Fair.

Exposition officials term the present fair the most successful since its foundation. Attendance up to last night had reached the high total of 143,753. All previous records, too, were broken last Wednesday when nearly 40,000 people pushed through the fair grounds to witness the first day's automobile races.

Support Is Generous.

People of Oklahoma City and the entire state have supported the fair in more generous fashion this year than ever before, not only in attendance but in participation in the exhibits.

It is believed that, since such great interest has been created, it will be necessary to enlarge many exhibition halls before next fall in order to accommodate those who will desire to take part in the exposition. This is true particularly of the automobile building.

Breeders Hold Jersey Sale

Breeders and feeders of Jersey cattle hunched their stuff and held a sale in the livestock pavilion at the fair grounds this morning. The first cow, a 6-year-old, was knocked down at \$180, and the others sold at proportionate prices.

Most of the exhibitors of the breed from without the state will have loaded their exhibits before night. All are leaving with a high opinion of Secretary Mahan's admirable selection of the men who managed the livestock end of the fair, and express determination to return next year with larger herds.

Old-Time Waltz Comes Into Vogue, New Dancing Instructor Declares

Miss Gertrude Cox, of Chicago, a pretty, vivacious, graceful young woman who has devotedly studied the dancing art.

Miss Cox is a graduate of the Chicago normal school of physical education and specialized with Mme. B. Hazlett, assistant to Chaild of New York. After that experience she studied with Veronice Vestoff of the Imperial Russian Ballet.

She will be introduced within the next few days to Oklahoma City's social set by President Frank Scheiner of the institute, and began preparations for her season's work immediately.

Miss Gertrude Cox.

noon, declared to solicitous terpsichorean enthusiasts that the old-time waltz is coming into vogue again and perhaps soon will be the rage as of a long time ago. The new director is

TWO SQUARE MILES OF FRIED ONIONS: MY, WHAT AN ODOR!

COLUMBUS, Ohio, Sept. 30.—Two square miles of the Ohio marshes, said to be the largest in the world, were a glowing ember of burning peat while the entire population of McGuffey and the countryside worked under military organization of Lieut. Col. Hugh Runkle, sent by the adjutant general of the Ohio National guard to confine the fire which swept the union beds. The green crop was gathered in advance of the flames by organized brigades of cartmen. Water was unobtainable and the efforts of the growers were confined to trench digging.

With a large force of machinists and a complete equipment we can handle work promptly.

CHICAGO CLUB WOMEN ASK WHEAT EMBARGO

CHICAGO, Sept. 30.—Resolutions asking an embargo on wheat and flour were adopted today at a meeting of club women, most of whom defended bakers here for raising the price of bread. The increase, they declared, was justified by war exports, crop shortage and added manufacturing expenses due to improved sanitary conditions. Federal officials called attention to quotations from European capitalists stating that the fact that bread from American flour is selling cheaper in London, Trieste, Lyons, Havre and other cities than in the United States relates the assertions that the war department has justified higher prices.

Studebaker Service

—that teaches the care of your Car

It is a matter of common knowledge that less "troubles" are experienced with Studebaker cars than any other in its class.

This is not only due to the excellent quality of the materials that are put into every Studebaker car but also to the thoroughness of Studebaker DEFINITE Service and its success in educating owners to take care of their cars themselves, thus insuring 100% operating efficiency all the year round.

Studebaker DEFINITE Service comprehends more than a mere invitation to "drop in if anything happens." Its purpose is to forestall all possibility of "trouble" by the regular and systematic inspection of your car—which is given for a period of six months because Studebaker considers this just as important a part of your purchase as the cushions or tires.

Nothing would please us better than to have you come in and let us tell you more about Studebaker DEFINITE Service.
